Professional Summary

Lead WordPress Engineer with 8+ years of proven experience architecting, developing, and delivering high-performing, reusable solutions. Proven in applying OOP, SOLID, and DRY principles to build secure, maintainable, and future-ready WordPress solutions. Recognized for exceptional debugging expertise and solving complex WordPress challenges with precision with ensuring optimized, reliable results. Always eager to take on new challenges and turn ambitious ideas into reality.

EXPERIENCE

Lead WordPress Engineer | **Echoasoft** | September 2023 - Present

- **Architected DiviFlash** for migrating **60+ modules** from **Divi 4 to Divi 5**, achieving high reliability, minimal bugs, and streamlined migration.
- Developed **Menu** import/export for seamless portability.
- Created **Table of Contents**, **Advanced Pricing Table** and other modules.
- Built **Preloader**, **Login Customizer**, **Maintenance Mode**, and other **global & Divi extensions** to enhance functionality and user experience.
- Delivered a **React SPA Plugin Dashboard** that streamlined **layout import**, optimized **module, license management** and elevated the user experience.
- Resolved **100+ critical bugs**, significantly improving product stability and performance.
- Provisioned and deployed **multisite**: **700+ module demos** and **40+ layouts**.

Senior WordPress Engineer | **rtCamp** | June 2022 - August 2023

- Migrated **Manheim** from **Adobe Experience Manager (AEM) to WordPress**, ensuring a seamless transition and optimized performance.
- Developed **Elementor widgets and dynamic tags** to extend site functionality
- Built a **feature plugin** to manage CPTs, taxonomies, ACF, and theme-level functionalities.
- Resolved critical **multisite issues** with **Yoast SEO schema generation and duplication**, improving site integrity.
- Supported **Grazia** and **Grist** by resolving high-priority, production-level issues.
- Created custom **Gutenberg blocks** for modern, flexible content editing.

Software Engineer | **weDevs** | April 2020 - May 2022

- **Led WPUF**, enhancing payments (PayPal, Stripe, manual), taxation, subscriptions, pay-per-post, fallback handling, and other core features.
- **Built seamless integrations** for, Gutenberg, ACF and Elementor.
- **Advanced the Form Builder** by enhancing conditional logic, CAPTCHA, metadata, maps, and others fields.
- **Introduced** email template editor and a streamlined registration process, strengthening usability and adoption.
- Resolved **100+ bugs** across **WPUF, Dokan and WC Conversion Tracking.**
- **Contributed to Dokan Multivendor**, enhancing single-user-multi-vendor, store analytics, and other modules.

Developer & Systems Engineer | **Xorent** | October 2018 - March 2020

- Developed a real-time scraping solution for **ShopnShipBD**, enabling direct purchases from **Amazon, eBay, Sephora, and Victoria's Secret** while maintaining native cart functionality through custom **PHP session handling**.
- Provisioned, configured, and maintained **web, proxy, and database servers** using **Nginx, Apache, HAProxy, and MySQL**.
- Scraped product databases from **Victoria's Secret** and **La Senza,** storing results in a structured database for application-wide integration.
- Built an **image server** using **Nginx** for dynamic resizing, caching, and optimized delivery.
- Automated monitoring with **cron-scheduled, Bash scripts**, sending real-time **phone and email alerts** for critical errors.

SKILLS

- **WordPress:** Plugin & Theme Development, Gutenberg, VIP, Multisite, Decoupled Architecture, Migration, REST API, CLI
- **Languages & Frameworks:** PHP, JavaScript, HTML5, CSS3, ReactJS, Vue.js
- **Databases & Caching:** MySQL, PostgreSQL, Redis, Memcache
- **Web & Server:** Nginx, Apache, HAProxy, Cloudflare, Docker, Linux, SSH
- **APIs & Integrations:** REST/GraphQL, Stripe, PayPal, Paddle, Google APIs, JSON, AJAX
- **Tools & Workflow:** Git, Xdebug, Gulp, Webpack, npm, Yarn, Composer, CI/CD

Leadership & Impact

- Turn challenges into opportunities, helping teams see problems as pathways to better solutions.
- Fast learner, able to pick up new technologies and processes, applying them efficiently to deliver results.
- Action-oriented and results-focused, always keeping priorities clear.
- Maintain strong attention to detail while keeping the bigger picture in mind.
- Reliable under any circumstances, consistently delivering outcomes.
